

Partner with us in making a dream come true.

QCS registered with the Department of Education in 1994 as an independent school, with its humble beginnings in a hall at an orphanage in Queenswood.

In that dusty old building, a dream was born to make a difference in the lives of every individual student, educating with excellence, and giving them a Godly sense of purpose. The students were not only introduced to the exciting world of academics, but time management, mastery of content, taking ownership of their academics, and understanding that they were born for a purpose. It is our privilege to partner with the parents in walking a road with them to assist them in discovering that purpose.

As more students were added and the school grew, we rented other premises, until we finally were in a position, with the assistance of an investor, to purchase the property we now have.

Although the property was initially not suitable for a school, we rented classrooms, made changes to the play area, and learning in all its various facets continued!!

Usage rights to the land had to be changed to “Educational” and bulk services from the municipality initiated.

Our dream and passion for teaching these bright young minds does not end here. We have employed the services of an architect to dream with us to build a school which would give the students vision to excel in the brave new world they are going into.

We are inviting investors to partner with us in this wonderful opportunity to participate in a practical sense in the lives of the current and future students.

Contact Andre Nel (082 576 1836) or Erika Du Plessis (083 373 7272) for more information. Alternatively make an appointment to come and see how we are impacting the future of our young dynamic innovative South Africans.
